This Financial Services Guide (FSG), dated 24 February 2025, is designed to assist you in deciding whether to use any of the financial services offered by River.

Not Independent

We are not permitted to use the terms independent, impartial, unbiased, or like terms, as we receive commissions for any life risk insurance products, we recommend that are implemented on your behalf.

What type of advice you might receive from us

We are licensed to offer general financial advice only. We do **not** provide and are not licensed to provide personal financial advice to our retail clients. Any general financial advice we provide has been prepared without taking into account any of your personal investment objectives, financial situation, or needs. Therefore, before acting on the advice, you should

consider the appropriateness of the advice, having regard to your objectives, financial situation, and needs.

There may be a product disclosure statement or prospectus, terms and conditions, an outline of fees as well as a document outlining specific risks for the securities and financial products discussed by our staff members or communicated via written, verbal or electronic means. The purpose of these documents is to provide you with information about the particular product to enable you to make an informed decision in relation to the acquisition of that product. You should obtain a copy of the product disclosure statement, prospectus, or related product or service documents before making any decision about whether to acquire the security, product, or service.

How you can give us instructions

We accept instructions from you in person, by telephone, facsimile, post, or by email. If you are dealing securities online using River, your instructions will be taken using an online third-party broking platform.

The kinds of financial services we provide and the financial products to which those services relate

For retail and wholesale clients as defined in chapter 7 of the Corporations Act 2001 section 761G, we are authorised to carry on a financial services business to:

- **Provide general financial product advice on:** deposit and payment products; interests in cash management trusts; superannuation; margin lending facility; and securities.
- **Provide execution-only dealing services** we will facilitate the placement, execution, and settlement of your orders through third-party platforms.
- **Deal in a financial product by:** issuing; applying for, acquiring, varying or disposing of a financial product on behalf of another person in respect of basic deposit products and deposit products other than basic deposit products, interests in cash management trusts, superannuation; margin lending facility; and securities.

For wholesale clients only (as defined in s761G (4) of the Corporations Act 2001 and where evidence has been provided), we can provide the following financial services:

- **Managed Portfolio Services:** With a Managed Portfolio Service (MPS), River invests in financial products using funds or assets provided by you in accordance with the terms

of an MPS Agreement and Investment Program. Your investments are managed as a discrete portfolio with you retaining the legal title and ultimate control of the assets. River does not pool your assets with those of other clients or use a custodial service. An MPS is useful if you do not have the time, desire, or market knowledge to manage your investment portfolio. Your Adviser monitors your investments on a regular basis and uses their expertise to make investment decisions on your behalf.

- **Portfolio Administration Service (PAS):** This provides you with quarterly reporting that includes a comprehensive summary of the performance of your investments, transactions undertaken on your behalf and any income, expenses and capital gains. There is no exit fee.

Risks involved when using financial products and services

The securities that River is licensed to advise and deal in include: ASX-listed equities (or shares), exchange-traded options, warrants and contracts for difference (CFDs). All of these types of securities carry financial risks.

Fully paid ASX equities may lose up to 100% of their initial purchase value, or 100% of your initial investment. Certain types of ASX equities and ASX warrants can also carry a future liability, meaning you might be required to contribute future payments under the terms of the security being traded.

Certain exchange-traded options strategies can lose value by a sum greater than your initial investment.

CFDs are considered risky products. Most CFD products are leveraged, meaning that your total trade exposure is greater than your initial investment. In most cases, your total trade exposure is many times greater than your initial investment. This means that you can lose more than your initial investment.
